ASTAC RESPONDS TO THE NEWS OF FORMER QUINTILLION CEO

We want our customers to know that the news of former Quintillion CEO Elizabeth Pierce pleading guilty to wire fraud and identity theft in no way affects ASTAC services or service costs.

While the incident was unfortunate for Quintillion's reputation, the project has moved forward under new leadership during the last year and a half and has enabled ASTAC to both improve its quality of service and service offerings with access to additional bandwidth.

ASTAC's long-term goal is to bring broadband connectivity to all markets it serves. Tying into Quintillion's fiber network allowed ASTAC to provide faster high-speed Internet service in some of its markets in just the last year, and that work continues. ASTAC is proud of this transformational year and the vast network improvements it has brought the North Slope. Our mission continues as being the Arctic Slope's broadband provider of choice.
